Synopsis

In November 2022, Robert Bosch Manufacturing Semiconductor Sdn. Bhd. (PgP5), a world-renowned facility located at Taman Perindustrian Batu Kawan, Penang has recently obtained its Certificate of Completion and Compliance (CCC) for its final testing facilities.

Bosch PgP5 focus on final testing of components manufactured at Bosch Automotive Electronics' fab in Dresden, Germany, including semiconductors used in airbag systems and engine control units.

This state-of-the-art facility also houses R&D and training facilities, where they constantly strive to push the boundaries of innovation and provide their employees with the latest knowledge and skills.

If you are interested in visiting Bosch final testing manufacturing plant that values excellence, innovation, and sustainability, here is your chance to visit Robert Bosch Manufacturing Semiconductor Sdn. Bhd. (PgP5). Experience for yourself the cutting-edge technology, world-class facilities, and dynamic team that makes Bosch a global leader in the semiconductor industry.

Special Note:

Kindly be informed that Robert Bosch practices safety measure during site visit:

- All visitors must adhere to all safety instruction given by the officers in charge and signage whilst in the site.
- No slipper, sandals and high heels footwear are allowed.
- Robert Bosch shall not be held any responsible to any unwanted incidents happened during the site visit.
- Participants have to arrange their own transport to the stated venue, Robert Bosch and IEM will not be liable to any loss or damaged incurred.
